

To whom it may concern,

Parking management in the district of Wedding will be further expanded (see map overview). The following start date is planned:

- **5 December 2022, Parking Zone 78 (African Quarter)**

A number of residents have approached the Mitte district office in the past with demands for parking management to be introduced in this area. Due to the further compaction and increase in traffic, increased parking pressure has also been noticed in the district of Wedding. An independent expert investigation has confirmed this development, which is why the introduction of parking management seems necessary and appropriate to protect residents by driving back long-stay parkers from outside the area.

The following effects are achieved with the help of parking management:

- Residents, local businesses, customers and visitors find parking spaces more easily and quickly;
- Delivery vehicles find a parking space at the roadside more often;
- People are less likely to double-park and park illegally;
- Less traffic searching for parking spaces, achieving a general improvement of the traffic situation in the neighbourhood and more traffic safety;
- Noise and pollution are reduced

The following specific commitments were made:

- A new parking zone will be designated. The boundaries of the zone are shown on the map overview. The parking fee in the area between Lüderitzstraße und Glasgower Straße is EUR 2 per hour and EUR 1 per hour on all other streets
- The management hours in Zone 78 are:
Monday to Friday: 9:00 am to 8:00 pm
Saturday: 9:00 am to 6:00 pm
- As a general rule, the parking zone is identified using zone signs - signs are only displayed when entering or leaving the parking zone. There is normally no further indication of the parking fee/vignette obligation as the road continues.
