

Liste Medizinische Geräte für Riwne

1. Operations Saal und Chirurgische Ausstattung

- Operating table X-ray transparent ETIUDA
- Operating LED double-dome lamp with monitor
- Electrocoagulator ARS 400 BOVA
- Surgical bio-welding generator EK-300M "Svarmed"
- Electro-rolling instrument for open surgery
- Morcellator BOVA ERGO 300
- Diode surgical laser LIKA-SURGEON
- Resectoscope LAPOMED 23 FR (7.6 mm) 12 degrees, mono-bipolar
- Endoscope, telescope 12 degrees, diameter 2.7mm RICHARD VOLF
- LOTUS Series 4 ultrasonic system
- Dental chairs for doctors

2. Geburtshilfe und Gynäkologie

- Colposcope with video system
- Gynaecological chair MS-DOS MEDIK
- Fetal monitor (for twins)
- Incubator ATOM
- Neonatal blade (laryngoscope with 3 blades (00;0;1))
- Newborn heater (infrared heater for newborns)
- Open resuscitation system
- System for hypothermia of newborns TECOTERM NLO
- Steriliser for baby bottles
- Phototherapy lamp

4. Diagnostik und Bildgebung

- Ultrasound diagnostic system Voluxon S8 BT
- Ultrasound machine M-echo of the heart
- Fibroscope and colonoscope
- Electronic scales
- Binocular microscope
- Medical dry-print printer for X-ray images
- transmission device

6. Reinigung, Sterilisation und Versorgung

- Ultraviolet chamber for storage of sterile instruments PANMED 1C
- Ultrasonic cleaner for surgical instruments SKYMAN JP-080S
- Electric water distiller DE-10M medical
- Dental Autoklaven

3. Intensivmedizin und Anästhesie

- Ventilator TV-100 (Transport)
- Electric suction devices for aspiration of the upper respiratory tract
- Electric aspirator on stand Medela Basic 30
- Pulse oximeters for children, new-borns and adults

5. Labor

- Automatic biochemical analyser
- Automatic haematological analyser
- Fluorometers
- Medical laboratory centrifuge
- Laboratory thermostat for heating environment
- Thermo shaker for microtubes with cooling
- UV box for PCR
- Refrigerator for plasma storage (to -35°C & below)
