Information for senior citizens in Berlin

The coronavirus crisis poses great challenges for us and has led to massive restrictions on our lives. The coronavirus disease COVID-19 is especially dangerous for the elderly and those with underlying medical conditions. Therefore, we ask you to strictly abide by the rules issued by the federal state of Berlin and the federal government. This will allow you to protect yourself against COVID-19 in the best possible way.

We ask you to observe the following:

- To minimize your risk of infection, you should not leave your apartment unless it cannot be avoided.
- Try to maintain social contact by telephone or online (e.g., with VoIP technology such as Skype or messenger services such as WhatsApp). Letters and postcards will still be delivered by conventional mail.
- If possible, call other elderly citizens in your neighborhood to check on them. Tell them about the support options listed below.
- If you are unwell, please call your family doctor first before going to see them.
- Try to avoid going to the pharmacy. If you need medication, ask your neighbors or family if they can get it for you.
- Use pick-up and delivery services offered by supermarkets, or ask your family or neighbors if they can bring you what you need.
- Maintain distance to other people (especially those in your age group and your grandchildren).
- Maintain a distance of at least 1.5 meters (rule on distance) to anyone who does not live in your household.
- Make sure to observe the conventions for sneezing and coughing and the general rules on hygiene (which also apply to the common flu):
  - Wash your hands regularly and thoroughly with soap and water for at least 20 seconds
  - Do not sneeze into your hands; rather, cover your mouth with the crook of your arm
  - Try not to touch your face with your hands
  - Avoid shaking hands
  - Maintain distance to anyone who is ill
  - Air rooms frequently
- Do not let any strangers enter your apartment if you cannot verify that they are trustworthy. Never hand over large sums of money to strangers. **Do not hesitate to call the police by dialing 110 if you are unsure!**
- Use the support options in your neighborhood or those listed below.
Are worried that you might be infected?

- Please contact your doctor first, if possible by phone
- If you are unable to contact your doctor, you can call the central hotline for advice: 030 90 28 28 28
- Given the high volume of calls to the central hotline, the boroughs have introduced their own hotlines and email addresses. Residents can also use these if they have any health-related questions regarding the area in which they live.
