This is Laura!

Laura wanted to stand on her own two feet and open her fashion design store in Berlin. With the help of the EA Berlin she was able to save some time and did not need to trudge to the local authorities, the tax office and the chamber of commerce individually. She could register online from the comfort of her own home – irrespective of official opening times. She obtained, filled out and sent off all the necessary forms via the website. **A few days later she received the authorised documentation regarding her business registration in her mailbox.**
