Mrs. Karissa Agrippina Sjawaldy - Senior Associate Government Relations, Go-Jek

Mr. Ivan Renald Tigana - Chief Commercial Officer, Nodeflux

Mr. Yudha Arjuna Maoriza – Vice President Sales and Development, Nodeflux

Background

The visit to Berlin, Germany is a follow-up to an invitation to DKI to participate at the Asia Pacific Week (APW) 2019. APW has been focusing on innovation around Startups and their ecosystems, the global megatrend of the 21st century. In an exchange between Startups, industry and SMEs, the most important trends of the 4th Industrial Revolution will be discussed to develop joint projects and partnerships. APW is a collaboration forum that brings together experts from the world of business, science and technology, politics and government.

Driven by a youthful population of more than 250 million people owning at least 100 million smartphones, Indonesia has seen a rapid growth in the number of Startups trying to capitalize on this potential in a growing economy. Participating at APW can be a platform for collaboration and cooperation between the two Cities Jakarta and Berlin.

DKI delegation has been receiving an individual program that was fostering on following topics: Smart City, Entrepreneurship, Jakarta-Berlin Sister City Cooperation, 3D Mapping, e-Government and ICT services for public administration in Berlin. Aim was to share best practices from Berlin and elaborate potential fields of cooperation. In cooperation with the Indonesian Embassy in Berlin, DKI has been presenting it's latest innovation and strategy plan of Smart City 4.0. Participating Startups have been also presenting their technology and services among international participants and sharing their story of cooperation with local Governments in Indonesia especially with DKI.

Activities

Monday, May 13, 2019

1. Opening of the Asia Pacific Week at Haus der Deutschen Wirtschaft
2. Conference on Innovation at Haus der Deutschen Wirtschaft
3. Meeting with the Indonesian Ambassador to Germany
 - The meeting was chaired by the Indonesian Ambassador to Germany, Mr. Arief Havas Oegroseno, also present at the event were representatives from the Creative Economy Agency, Startup AsiaBerlin Hub – Manager in Jakarta and several representatives of Startups from Jakarta, Makassar, Bandung and Medan.
 - Participants were discussing the proactive role of Indonesian government through cooperation with the Indonesian Embassy in Germany and the enhancement of cooperation between Berlin and Jakarta. Participants have been expressing the importance of exchange of expertise and know-how which is needed by Indonesia.

Tuesday, May 14, 2019

1. Connecting Startup Cities Conference at Spreewerkstätten
2. Meeting with the Chief of Protocol of the Federal State of Berlin
 - The meeting was chaired by the Head of the Berlin Government Protocol, Mr. Proepstl
 - Aim was to discuss the program of sister-cities Berlin Jakarta, whose 25th anniversary will fall in 2019
 - On this occasion, the Jakarta assured support for several cooperation programs, such as education, youth and sports and health that have long been established and the impact and scope will continue to be developed.
 - For more detailed technical follow-up, Berlin and Jakarta are extending their continuous dialogue
 - European Grant Application of Berlin and Jakarta has been evaluated by European Commission successfully. Proof of eligibility of Berlin and Jakarta is under way; project may start in September or October 2019

Wednesday, May 15, 2019

1. Embassy Day at Asia Pacific Week: Smart city and Urban Innovation: Indonesia Perspective at Spreewerkstätten

Jakarta has the opportunity to get a special forum attended by various groups.

Speakers:

- Perry On (Deputy Chief of Mission, Embassy of the Republic of Indonesia)
- Raditya Wibowo (Senior Vice President, Global Transport Go-Jek)
- Syaifullah (Non-Banking Access Director, Indonesian Creative Economy Agency)
- Atika Nur Rahmania (Head of Department for Communication, Informatics and Statistics - Jakarta Provincial Government)
- Dr. Rainer Seider (Head of the Foreign Trade, Development Cooperation and European Policy Unit, State of Berlin)
- David Christian (Founder & CEO, Evoware)
- Adi Reza Nugroho (Co-founder & CEO, Mycotech)
- Kristina Sembiring (CEO, MOI)

On this occasion, DKI explained the collaboration that has been and will be carried out with digital Startups to improve services to the public. One of the highlights is the collaboration with Nodeflux and Go-pay in improving the tax compliance and generation of data for Jakarta.

2. Visit to EUREF-Campus
 - EUREF https://euref.de/en/home_en/ is a business unit that is managed privately but has a social and environmental mission.
 - Through the incubation center of a local pilot company, EUREF encourages the creation of a campus ecosystem that enables any radical ideas related to reducing greenhouse gas emissions and increasing access to environmentally friendly vehicles.
3. VIP Networking Cruise: On this occasion, DKI Jakarta has the opportunity to network with all conference participants, including investors, Startups and government representatives.

Thursday, May 16, 2019

1. Visit to Berlin Location Center (BLC)
 - This visit is to see first-hand how ICT can be used to encourage compliance with the arrangement of regions and buildings in Berlin. The 3D mapping

model for proposed construction and the paid subscription-based self-service system are two initiatives that need to be studied to be developed in Jakarta.

2. Visit to the Berlin IT Service Center (ITDZ)

- This visit was conducted to get input on the plan to develop Jakarta Smart City Unit as a regional public service body.
- The ITDZ is a government-formed body to provide technology services for government and society.
- The organizational form and task and responsibilities of the Center have been discussed
- Additionally, e-Government task of ITDZ have been discussed and compared to DKI current status quo

3. StartUp Asian Berlin Reception

On this occasion, Nodeflux, a pilot company that collaborated with DKI Jakarta in the field of artificial intelligence in tax compliance, has been presenting its technology and collaboration with DKI to the audience. This collaboration is a best practice from Jakarta on collaboration between Startups and local government to enhance services and performance of e-Government tasks. Local Startups from Berlin have been encouraged to visit Jakarta and elaborate on a potential cooperation.
